Kelas : Teknik Infoematika A

Tugas Praktikum Python 1

The screenshot displays the Visual Studio Code interface. The Explorer sidebar on the left shows a project named 'UTS' containing a file 'praktikum.py'. The main editor window shows the code for 'praktikum.py', which includes a 'header' function and a main execution block. The terminal at the bottom shows the command to run the script and its output, which displays the header information and prompts for user input. The user has entered their name, NIM, and faculty information, which is then printed back to the terminal.

```
1 def header():
2     print("UNIVERSITAS KOMPUTER INDONESIA")
3     print("JL PATI UKUR 112-114,BANDUNG")
4     print("-----")
5
6     NAMA = input("NAMA : ")
7     NIM = input("NIM : ")
8     JURUSAN = input("JURUSAN KOMPUTER : ")
9     FAKULTAS = input("FAKULTAS : ")
10    print("NAMA : ",NAMA)
11    print("NIM : ",NIM)
12    print("JURUSAN : ",JURUSAN)
13    print("FAKULTAS : ",FAKULTAS)
14
15
16    print("-----")
17    header()
```
